DIV OF OIL GAS & MINING

Dear Ms. Jensen,

In August 2003, Heritage Quarries submitted a plan of operations for the Green Peak Quarry in Box Elder County, Utah. We have met several times to discuss this plan, and we have modified the plan based on those discussions.

Attached is the plan of operation that contains additional detail, and reflects the new location of the waste pile, as requested by the BLM. Because of the changes, the amount of disturbance has been reduced. This plan reflects operation by the claim owner, I & P Investments, who may contract for on site operation.

Your prompt review of this material will be appreciated.

Sincerely,

/s/

Cindy S. Emmons
